

CAR TAPE

UV- AND WEATHER RESISTANT DOUBLE-SIDED, SELF-ADHESIVE FOAM TAPE FOR INDOORS AND OUTDOORS.

CURE TIMES

Full bond strength: Full bond strength after approx. 24 hours

* Curing time may vary depending on a.o. surface, product quantity used, humidity level and ambient temperature.

TECHNICAL PROPERTIES

Moisture resistance: Good

Temperature resistance: -20°C to +75°C

UV resistance: Good

Chemicals resistance: Good

TECHNICAL SPECIFICATIONS

Chemical base: Polyethylene foam with acrylic adhesive back.

STORAGE CONDITIONS

At least 24 months after date of manufacture Store in a dry, cool and frost-free place.

PRODUCT DESCRIPTION

UV- and weather-resistant, black, double-sided self-adhesive foam tape for smooth and even surfaces indoors and outdoors. Ideal for fixing accessories in e.g. cars and caravans.

FIELD OF APPLICATION

For fast, clean and simple fixing of accessories in cars, boats and caravans, such as decorative strips, third brake lights, type plates, traffic- and warning signs and thermometers. Adheres to even and smooth surfaces. Not suitable for rough surfaces (stone, decorative plaster) and vinyl wall coverings.

PROPERTIES

- UV- and weather resistant
- For use indoors and outdoors
- Strong: 120 grams / 2 cm tape
- Fast
- Black

PREPARATION

Surface requirements: The surface must be clean, dry and free of dust and grease.

APPLICATION

Directions for use:

First mark corners of object on surface, since fixed objects can hardly be moved without damaging adhesive strips. Apply sufficient tape on back of object to be fixed (2cm per 120g). Remove protective film, put object in place and press firmly.

Stains/residue: Remove tape residue with white spirit.
